

Town of Indian Trail Map, August 30th, 1927
by Thomas W. Secrest and son, Milas V. Secrest

The staff of the Dickerson Genealogy & Local History Room scanned this original map in December of 2010.

Due to years of folding and handling there will be a slight irregularity to four sections of the streets; rather than 'fix' this, staff chose to keep the scan of the map in its original state as found.

The original map is framed and on display at the Union West Branch in Indian Trail, N. C.

Below is a transcription of the text on the map with line breaks, punctuation and spelling 'as is'. Use of (?) indicates that the transcriber was unable to understand what was intended.
