AN ENORMOUS AND CURIOUS FISH.— A fish was harpooned last week at the mouth of the St. Johns river, which is of a species utterly unknown here. Several naturalists who have examined it disagree—one classing it as a sun-fish, another a halibut, and othnine feet, and width six feet, weighing about 1,000 pounds. Its small, hard mouth evidently showed it was one of the clameaters, its flat belly allowing it to lay concealed at the bottom of the river. This fish has been skinned. and will be stuffed to exhibit at the State Fair, and afterwards at the Centennial.—Florida Agriculturist.

SHOOTING AFFAIR -On last Saturday night, about 12 o'clock, the citizens of our quiet town were aroused by the ringing of the bell at the Episcopal church and the cry of fire; no appearance of fire, however, was to be seen-and, upon enquiry the alarm was caused by some persons firing into the house of Mrs. Pruner, and also around the dwelling of Mrs. five years, and it has numbered among | Marshall. | We learn there ; were sev eral pistol reports, and two shots entered the windows of Mrs. Bruner's house, causing great consternations there being no man on the premises. A few shots were exchanged between them and the guard, but no one was hurt.—Arque.

A HORRIBLE DEATH-PRESSED TO DEATH IN A COTTON PRESS.-We have information from Steel Creek, in this county, that on Tuesday, a son of Mr. Ellison Walker, 10 or 12 years of age, was crushed to death in a cotton press which was being run by his brother. Joint Stock Co-operative Farming Com-

AT. IL D. THE SECRET SECRET We are glad to say that considerable interest has been excited by the articles which have appeared in the Rural Carolinian on the subject of co operative farming! The views advanced appeal to the practical comanon sense of the planter and the business man. ... The only fear expressed is that the agricultural classes are so little accustomed to any combination or concert of action, and so innfitted, by the habits bred of their isolated, hundrum life, that they will be unable to act together, in the way proposed for the common good. #A few years ago, this fear would have been well grounded, perhaps, but the Grange has already done much to teach the farmers their true relation to each other and to give them corfidence in associative action. They 'see clear'y the application of the principle to their own business to farming itself-and are, many of them, ready, we are convinced, to show their faith by their works.

As there is at present no organization of the elements required in such a combination as we have indicated, and one is likely to wait for another to take the initiative, and the work be thus indefinitely delayed, we hereby offer to become a medium of comnunication between the various purties who are interested in setting on foot one or more Joint Stock Co-operative Farming Companies to operate in the South, especially in the Sea Z Island and coast region of South Car. lina. Land owners capitalists, practical farmers, stock raisers, and business men, interested in this movement and willing to invest money in it, or to work for it, are carnestly invited to address us on the subject, stating what they are willing and able to do. A Southern Indiana correspondent writes: "Orehard grass, Kentucky blue grass and white clover, and, if the ground is low or moist, add red top, and you have the finest and most productive pasture known among extensive stock growers, as it requires no re-seeding, but improves in quantity and quality, carrying more stock each succeeding year—invaluable for FIANOS woods and pastures, and should be extensively sown in the burnt forests. Leaving out the Orchard grass (as it is too rank and rapid a grower,) you can have the best mixture that can be formed for lawns, yards, etc. Orchard grass alone makes the most profitable meadow, as it is immensely profitable meadow, as it is immensely the lasting quality of their instruments is fally attested by the many Educational and other Institutions, in the Southern States the unanimous verdict of the best is always the cheapest, and hence purchasers of STEEPF Planes will find a satisfactory equivalent for their money.
