Terrible weather-quite an old fashioned Christmas—the snow falling fast in flakes as large as dimes, and an icy, penetrating whid sweeping across the country with a fierce determination to have its own way. Everybody said it was the coldest winter ever known; but that it is the annual saying.

At the Elms, the seat of a country gentleman, in one of the Northern States, a large party had assembled to spend the Christmas holidays. Mr. Fowler, the owner of the Elms, was a man of both taste and liberality, and enjoyed nothing better than to gather his friends around him. He was a Practices in the Superior and Supreme widower, with one child—Lucilla, a Courts of this State, and the Federal Courts sparkling, sprightly girl of nineteen or twenty.

The party consisted of several friends and neighbors of Mr. Fowler, and their wives and daughters. There was, of course, a proportionate number of young men, and among them a certain Captain Wilfred Herbert, a great admirer of Lucilla's, without as yet having actually declared himself. It needed not much discernment however to perceive that he was devotedly attached to the young lady, while she on her part was not indifferent to him.

But just let me tell you a word about Lucilla. She was one of those dear bewitching creatures that will make you think that you are a very nice sort of a fellow, and that you are just the kind of a man that she always admired, then without any percentible effort, will cause you to suppose that you are a great, blundering thing that astonishes himself by his own conceit in supposing that he, for a moment co lel compare himself with her; but underneath all this, there was a woman's nature that could be loving, and even sincere. Now, her father, who strange to say, could not read young ladies like a book seeing only a coquetté in his charming daughter, was much pleased by the preserve paid her by the handsome young officer, who came of an excellent family, and in addition to his profession, had an ample private fortune, and in his parental solicitude. was desirous of seeing her happily settled with some deserving and eligible young man. Mr. Fowler himself was verging on seventy years, having

married late in life. It was about midday and the scene in the grounds of the Elms was animated and striking. They, were of great extent, and in summer most beautifully laid out. Now, however, their beauties were veiled beneath a waste of snow. The immense elmsyews and cedars which skirted the lawn so extensively as almost to resemble the open space in a park, were weighed down by fantastically shaped conglomeration of snow, and the lawn itself was a vast sheet of white, reminding one as much of Siberia, and its sable and mink hunters as of an American handscape and a party of American ladies and gentlemen.

The guests of Mr. Fowler-some thirty in number-seemed to be enjoying themselves amazingly. Some of the young men had for the amusement of the ladies, contrived to make a huge figure of snow, and they and their fair companions were row engaged in pelting the giant with snowballs. Others had rigged out, Russian fashion, some pretty little sleighs, which, drawn by three ponies adorned by silver bells, and each capable of containing two persons, afforded an opportunity for flirting not to be lost by people snowed up in a country please?" house. Most of the young ladies were clothed in fur suits from head to foot, while the gentlemen in fur caps and jackets, contributed their share to a very picturesque tableau. The tinkling of the sleigh bells, and the merry shouls of the party engaged in pelting the snow giant formed a most pleasing accompaniment to the

hilarity of the scene. Miss Fowler, who had been sleighing in turn with half the young men again ?" of the party, had left the merry throng for one moment to confer with her

Captain Wilfred Herbert, who had been watching an opportunity marched up to Lucilla, a cloud on his handsome face.

"Will you sleigh with me now, Miss guests and retire to her own room. Fowler? I think it my turn."

Death of Brigham Young.

The telegraph announces the death of the great Mormon, Brigham Young which occurred at Salt Lake City. Utah, on the 28th ult. The great in trust elected. Two of the twelve Mormon leader preserved a marvelous vigor up to the time of the execution some months ago of Bishop Lee, to Utah immediately. the principal actor in the Mountain Meadows massacre. Since that event, which gave a serious shock to the nerves of all Mormondon, Brigham Young has been breaking down. The movements made looking to the bringing to justice of all the leaders in the conspiracy, including Young, for their responsibility in connection with that is done by deed, and not in the will horrible infamy evidently made their impression upon him. His death ends will. The will seems satisfactory to his responsibility on earth. Whether it will end in this country the system of polygamy, which he and his adherents have so persistently and definntly maintained and propagated in Utah, remains to be seen. Brigham Young was born in Vermont, June 1, 1801. He was educated a Baptist. but joined the Mormons in 1832, and became a leading preacher of that church. After the death of Joseph Smith, in 1844, he was chosen president of the Church of the Apostlesand from 1846 to 1848 he led the host heard of him. Have had the pleasure, recently, of visiting several of the best farms in this vicinity, and was pleased with the nice condition of the crops.

Our enterprising and industrious neighbor, Mr. W. B. Marsh, whose farm is located within a mile of this place, has a crop worthy of particular mention. He plants, this season, one hundred acres in cotton and one hundred and twenty in corr. Besides. he has harvested a large crop of wheat. Some of his fields gave evidence of a high state of cultivation.

Do our stockmen and farmers appreciate the difference between a good steer or cow and a poor one? Do they know how much more a good large draft horse brings than a little, inferior animal, bred from a small worthless trotter, so called; or a good well bred hog or slieep more than quiries of those who ruise and sell the improved breeds. We know the good stock brings 100 per cent. more than the scrub, and at their enhanced value it is more profitable to feed or to graze than the poorer kinds. It is a waste of capital for a farmer to breed anything but good stock, whatever argument may be advanced in favor of the the Favorite Prescription a trial, and she Texan cow upon the plains. It is as is now sound and well. easy to raise a 1,500 pound steer at four years old, if good bulls and cows are used to breed from, as to raise a nine hundred pound Texan, and the price obtained for the full breed one is nearly twice as much as the scrub fetches. As to horses, it is almost imposible to sell a little, trifling horse except for a cow pony, but the large wratt horse always sells at good figtires. A Berkshire or Poland China hog will make nearly double the taken in exchange for work. Orders pounds of meat from a given amount from a distance promptly filled. or food that the poor, ill bred hog will, and the meat is better. A Merino ewe will produce from eight to ten carnet wools.

Why our farmers will waste their money, feed and graze on such kinds all your time to the business, or only your of stock is a mystery, when they can home over night. You can do it as well as well as others. Full particulars, directions and have time to improve, and judging from the number of enterprising stock men who are purchasing good balls and rams, the day is not far distant where the distant distant when Colorado will do far better than she is doing now.
