Six Acres Betier than Fifty. :-

All over our country we are raising pitifully small crops from large fields.

their freedom from coughs and colds, observed a six acre lot upon which he and, in fact, their general health. But raised every year, a fine crop of wheat. few consider that half of a young The crop of 1832 was the very best child's life should be spent in its bed. wheat I ever saw. Enquiring into the child's life should be spent in its bed. So that unless the atmosphere of the scoret of his success he told me in subscience, the atmosphere of the scoret of his success he told me in subscience, the atmosphere of the scoret of his success he told me in subscience, and the texture of the bed they lie on, and the texture of the lot for twenty one years in succession. Other which cover them are taken into consideration, it is only half their existence which is being cared for."

When he began with it the land was writing to suck my remained as it payelean worn and thin. The secret of its restingly and thin the most sail payelean in the first which we it for any of the intensity which is the preparatory to sowing peas. Having large the first of October, he turned them below the surface and and perfectly and in classification and in that the first of October, he turned them the surface are among the all the most surface and solve the whole; slack the lime under and sowed two bushe. Of

will disolve the whole; slack the lime | under and sowed two bushels of with the water, putting on more wa- wheat to the acre, harrowed and reil-ter than will slack it, so much that it ed the ground. The first year he made when the water, putting on more water than will slack it, so much that it will form a very thick paste; this will not take all the water; put on, therefore, a little of the remainder daily until the lime has taken the whole. The result will be a powerful deodorizer, equally good for all out-door purposes with the article bought under that name at the apethecary's, and costing not one-twentieth part as much. This should be kept under a shed or some out-building; it should be kept under a shed or some out-building; it should be kept under a shed or some fencing; it should be kept under a shed or some out-building; it should be kept under a shed or some fencing; it should be kept under a shed or some out-building; it should be kept under a shed or some fencing it is should be kept under a shed or some out-building; it should be kept under a shed or some fencing in the stubble and the peas. He told me that he never had flour to buy when the flooring are among thor diseases if the second with a centary which has to make a good crop. When it was harvested he she he was harvested he sowed peas as before—turning the sowed peas as before all near the sowed peas as before. Again in October he turned his peas under—sowing wheat and treating the ground and the series and the stream transfer and the sowed peas as the form and remained or the curn. Again in October he turned his peas under—sowing the sowing wheat and treating the ground remained or the curn. Again in October he turned his peas under—sowing the sowing wheat and treating the fensive odors are generated, with the when Le concentrated in the six acres assurance that it will be effective to when he trusted to fifty or'a hundred purity the air, and will add to the val- acres on the common plan, he ha?

> ces and observations, showing that six may be better than fifty? We invit communications from our farming friends-giving facts, experi nents and results. We suggest two rules only: Be trief; be accurate.

It is claimed that Vanderbilt exhiblarge quantity of fruit sets, it is best ited great nerve and shrewd business to remove a portion of it when very sagacity in the purchase of stocks and small. Take a pair of scissors in June | railroads controlled byftim. Yet, whenand clip out from one-third to one-lever he made an investment he rehalf of the smallest clusters, and what beived in return an equivalent either is left will ripen well and be worth as his own, or as collateral security. double what the entire crop would be Dr. R. V. Pierce has invested many aundred thousand dollars in advertis-There are many places where grape- ing, depending entirely upon the sugrowing is not considered profitable, perior merits of his goods for securisolely owing to an improper managerity. The unparalleled popularity of ment of the vines. The soil being his family medicines, and the annual naturally not very fertile, and perhaps increase in their sale, attests in arguotherwise not well adapted to grapements stronger than words of their circle properties from the most valuable roots and egrowing in a careless way, the vines purity and cilicitate. If the blood to be seed that can be read to ment a minute transaction of a walk, in the grass or accretional.

The properties of their circle properties and the most section of a minute and cilicitate ments and properties and properties and the most section of a minute and cilicitate ments and properties from the most valuable roots and properties from the most valuable roots and properties and the most valuable roots and properties from the most valuable roots and concentrate them have a minute and cilicitate ments and properties from the most valuable roots and concentrate them have a minute and cilicitate ments and concentrate them have a minute from the most concentrate them have a minute and concentrate them have a minute of the have a minute of the have a minute of them have a minute of the have a minute of them have a minute and concentrate them have a minute and conc not easily expand, perhaps by the side of a walk, in the grass, or near a building, where they are quite as badly attack of the soil be stiff and clayey. And the result is, that the vines at substant more fruit than the roots can sustain.

To obtain the largest possible quantity of well-ripened grapes everywhere the vines should grow where the soil and largest possible quantity of well-ripened grapes everywhere is naturally rich, or has been maderated and special substant and cartain remedy.

To obtain the largest possible quantity of well-ripened grapes everywhere ging-down sansations and weaknesses, the vines should grow where the soil substant and cartain remedy.

The rece is tunous, blotches, and pluntity of delegants as the most concentrated form, as more causante power as reminded in any of the large plus found for substantity and their size, people who have not tree them are apt to suppose that they are nonparison to their size, people who have not tree them are apt to suppose the first are class, the different active medicant principles of where they are compassed being so bacusoid and modified, one by the orders, as to produce a notified one to the colors, as to produce a not an included, one by the orders, as to produce the power, in comparison to their size, people who have not tree them are apt to suppose that they are the power, in comparison to their size, people who have not tree them are apt to suppose that they are the power, in comparison to their size, people who have not tree them are not tree them are the power, in comparison to their size, people who have not tree them are apt to suppose that they are the power, in comparison to their size, people who have not tree them are not tree them are the power, in comparison to their size, people who have not tree them are the power in the power in the power in content to the power in the power

Ayer's Cathartic Pills. For all the purposes of a Family Physic, and for curing Cestiveness, Jaundice, Indigestion, Foul Stomach, Broath, Headsche, Erysipelas, Rheumatism, Eruptions and Sirin Diseases, Biliousness, Dropsy, Tumors, Worms, Neuralpia, as a Dinner Fill, for Purifying the Blood,

feetive and congediscovered. They are mild, but effectual in their operation, moving the bowels surely and without pain. Although gentle in their operation, they are still the most thorough and searching cathar-

tic medicine that can be employed: cleansing the stomach and bowels, and even the blood. In small doses of one pill a day, they stimulate the digestive organs and promote vigorous health.

AYER'S PILLS have been known for more than a quarter of a century, and have obtained a world-wide reputation for their virtues. They correct diseased action in the several assimilative organs of the body, and are so composed that obstructions within their range can rarely withstand or evade them. Not only do they

nor any deleterious drug, these PHIs may be taken with safety by anybody. Their sugar-coating preserves them ever fresh. and makes them pleasant to take; while being purely vegetable, no harm can arise from their use in any quantity.

PREPARED BY Dr. J. C. AYER & CO., Lowell, Mass., Practical and Ancivical Chemists. SOLD BY ALL DRUGGISTS EVERYWHERE.

TOTAL ABSTINENCE SAVING WINE THA IT

There is a curious story about some native wince which are extensively advertised nowadays, and have only recently been put upon the marke. It. Underhill, the well-knewn stape-grower of Croton Point, died in 1871. Some of his heirs entertained temperance views of such extreme kind, that they were mailting to allow the stock of wises then on hand to be asid or any more to be made. The grapes have expectines even sent to market, and cometines left to decay upon the dues. It is easy now that the other heirs have succeeded in arrancing for a settlement of the estate and the take of the wines on hand. Among these is a wine of the vintage hand. Among these is a wine of the vintage of 1864, described at a "tiwest Union Part," but suggesting the Imperial Takay more than any other European wine, and being whelev unlike any other wine of American growth. Its party, age and mellowness are remarkable, and both physicians and wine-famores have a special interest in it as the oldest native whe now accessible in any considerable mandity. The whole stock is in the hands of the Well-known wholesale grocery hause of the Tauthers.—N. V. Tribune, Nov. 11, 1897. Nov. 17. 2577.

The above speaks for ficelf, but we would add flot this is the pure juice of the grape, neither drugged, liquoral nor watered; that it has been ripened and mellowed by age, and for medicinal or sacramental purposes it is unsurpassed. It can be obtained from most of the leading Druggists through at the United States, and at wholesale from the undersigned, who will forward descriptive pamphlet, free of charge, on application. Respectfully, etc., . .
