MONROE, N. C., SATURDAY, JUNE 14, 1879.

For so the world bath done, Since myrtles grew and roses blew,

But have a care, ye young and fair, He sure ye pledge with truth; Be certain that your love will wear Beyond the days of youth. For if ye give not heart for heart,

As well as hand for hand; You'll find you've played the "nawise" part, And "built upon the sand." Tis well to save, 'tis well to have

A goodly share of gold; And hold enough of the shining stuff— For charity is cold.

But place not all your hope and trust In what the deep mint brings: We cannot on yellow dust, Unmixed with purer things:

And he who puts up wealth alone, Will often have to stand B-side his coffer-chest and own "Tis "built upon the sand."

"Tis good to speak in kindly guise, And sooth where'er we can: Fair speech should bind the human misd, And love link man to man. But stay not at the gentler words— Let deeds with language dwell: The one who pities starving birds Should scatter crumbs as well.

The mercy that is warm and true Must lends helping hand; For those who talk, yet fail to do, But "build upon the sand !"

OUR MEN.

BY M. M. THOMAS.

"Why is it that the women of this country fade so early?" said a gentleman whose store I had entered the other day, in answer to my inquiries for his wife's health. "There is my wife: four years since, when I married her, she was as plump, rosy-cheeked a looking woman as you would see anywhere; now, she is thin and faded; and," he added, with a short, confused laugh, "her temper is as faded as her

A judicious vannah, Ga., Managers Southern ties will, we think, reveal places of filth which will, if not properly attended to, breed disease. Our municipal authorities cannot be too strict in enforcing health regulations at this unhealthy season. Every responsible occupant of every dwelling in town should be required to keep his or her premises entirely free from all filthiness that render an impure atmosphere, and is calculated to produce sickness. Monroe is, comparatively speaking, a healthy town at all seasons of the year-with a natural clime as genial and healthful, we dare say, as that of any section of Western Carolina or Virginia—but during excessively warm weather, such as we have recently had, if rottenness and putridity be allowed in our midet, we may expect a very different state. This is an important matter, and should be looked after. Nothing should be allowed that will imperil the health of the community;—and with proper diligence this can easily be obviated.

I have been confined to my room and bed for fifteen years with scrofulous ulcerations. The most approved remedies for such cases had been used, and the most eminent physicians consulted, without any decided benefit. Thus prostrated, distressed, des-ponding, I was advised by Dr. Ayer, of Floyd County, Ga., to commence the use of your Compound Excitract Stillingia. Language is as insufficient to describe the relief I obtained from the use of the Stillingia. scribe the relief I obtained from the use of the sill-lingia as it is to convey an adaquate idea of the in-tensity of my suffering before using your medicine; sufficient to say, I abandoned all other remedies and continued the use of your Extract of Stillingia, un-til, "I am cured of all pain," of all disease with nothing to obstruct the active pursuit of my pro-fession. More than eight months have elapsed since this remarkable cure, without any return of the dis-case.

The sheep husbandry in the comparatively new State of Texas has grown to be immense. There was recently held at San Antonio a convention of sheep growers, numbering 181. These 181 men represented 652,000 sheep, or an average of 3,600—three thousand six hundred to each grazier. Think of this ye farmers of North Carolina and learn a lesson of thrift and wisdom. In addition to the above it was stated that there were 200 other sheep pastures in the State, whose flocks, estimated at a smaller ratio, would number 720,000 thus giving a total of nearly 1,400,000 sheep in the possession of fewer than 400 persons. But for those who make sheep-farming their exclusive business a flock of 3,600 is a small matter. The rapidity with which a flock increases under such favorable conditions as are found in the South is astonishing, and men of the smallest means, who embark FULLY ILLUSTRATED & UNABRIDGED in the industry and pursue their labor with dilligence and intelligence, beome possessed of bewildering wealth within the space of a few years.

within the space of a few years.

Why can not our people avail themselves of themselves of the same source of wealth! It will not do to say that North Carolina is not well adapted to sheep-raising. There are over eighty counties well adapted to the purpose and some of these counties are equal to any in Texas for the end in view.

In 1868 California produced but 15.000 pounds of wool. In ten years it has grown beyond belief. It is estimated that the wool this year, 1878, will amount to sixty millions of wook work of the same selection and the purpose and some of these counties are equal to any in Texas for the end in view.

DR. R. V. PIERCE, having acquired a world-wide reputation in the treatment of Chronic Diseases, resulting in a professional business for exceeding his individual ability to conduct, some years ago induced several medical gentlemen to associate themselves with him, as the Faculty of the World's Dispensary, the Consulting Department of which has since been merged with the INVALIDS' HUTEL. The organization has been completed and incorporated under the name and style of World's Dispensary Medical Association, with the following officers: Hon. R. V. Pierce, Pros. F. D. Pierce, V. Pres. CHRONIC DISEASES of all forms come within the province of our several specialties.

LUNG DISEASES—This division of practice is very ably managed by a gentleman of mature judgment and skill. Bronchial, Throat, and Lung Discases treated with the most successful results.

DISEASES OF WOMEN—Especially are our facilities of a superior order for the cure of all those chronic diseases peculiar to females.

NERVOUS DISEASES—Paralysis, Nervous Debility, Epilepsy (Fits), Chorea (St. Vitus's Dance), Neuralgia, and other nervous affections, receive the attention of an expert in this specialty.

NOT NEOESSARY TO SEE PATIENTS.—By our original system of diagnosis, we can treat many NOT NECESSARY TO SEE PATIENTS.—By our original system of diagnosis, we can treat many chronic diseases as successfully without as with a personal consultation. Dr. Pierce's Favorite Prescription

The term, however, is but a feeble expression of my high appreciation of its value, based upon personal observation. I have, while witnessing its positive results in the special diseases incident to the organism of woman, singled to out as the climans or crowning eem of my medical career. On its merits, as a positive, safe, and effectual remedy for this class of diseases, and one that will, at all times and under all circumstances, act kindly, I am willing to stake my reputation as a physician; and so confident am I hat it will not disappoint the most sanguline expectations of a single invalid lady who uses it for any of the aliments for which i recommend it, that i offer and sell tunder a Postitive Gualkantzer. (For conditions, see pamphlet wrapping bottle.)

The following are among those diseases in which my Favorite Prescription has worked cures, as if by magic, and with a certainty never before attained by any medicine: Leucorhæa, Excessive Flowing, Panmai Monthly Periods, Suppressions when from innatural causes, Irregularities, Weak Back, Propagation, Panmai Monthly Periods, Suppressions, Internal Heat, Nervous Depression, Debility, Despondency; Threatened Miscarriage, Chronic Congestion, Infammation and Ulceration of the Uterus, Impotency, Barrenness, or Sterility, and Female Weakness, identically to this medicine as a "cure-all," but it admirably violitis a slawbase of purpose, being a demirably violitis a slawbase of purpose, being a purpose, being a demirably violitis a slawbase of purpose, being a purpose, being a demirably violitis a slawbase of purpose, being a purpose being

nammation and Diceration of the Citerus, Impotency, Barrenness, or Sterllity, and Female Wenkness. I do not extol this medicine as a "cure-ail," but it admirably fulfills a singleaces of purpose, being a most perfect specific in all chronic diseases of the sexual system of woman. It will not disappoint, nor will it do harm, in any state or condition.

Those who desire further information on these subjects can obtain it in THE PROPLE'S COMMON SENSE MEDICAL ADVISER, a book of over 900 pages, sent. post-paid, on receipt of \$1.50. It treats minutely of those diseases peculiar to Females, and gives much yaluable advice in regard to the management of those affections.
