SHESOLILOQUIZES.

BY A YOUNG LADY.

Well, let him go or let him stay—
I do not mean to die;
I guess he'll find that I can live
Wittent him if I try;
He the ight to frighten me with frowns,
So terrible and black;
He'll stay away a thousand years
Before I ask him back.

He said that I had acted wrong, And foolishly beside;
I won't forgive him after that—
I wouldn't if I died If I was wrong, what right had he
To be so cross with me?

He had another sweetheart once. And now when we fall out He always says she was not cross, And that she did not pout; It is enough to ver z saint— Tis more than I can bear: I wish that model girl of his
Was—well, I don't care where

He thinks that she was preity, too— Was beautiful as good; I wonder if she'd get him back Again now, if she could? I know she would, and there she is— She lives almost in sight; And now 'tis after nine o'clock— Perhaps he's there to-night.

I'd almost write to him to come-But then I've said I won't I do not care so much; but she Shan't have him, if I don't. Besides, I know that I was wrong,
And he was in the right,
I guess I'll tell him so—and then—
I wish he'd come to night.

BRICK BUILDING.

The Democratic Programme.

The Democratic members of the House and Senate held a joint caucus to receive the report of the joint advisory committee in regard to the appropriation bills. After several hours deliberation the following programme was agreed upon. The House committee on appropriations will immediately prepare for introduction three bills as follows: the army appropriation bill, vetoed by the President with the following new section in place of the section upon which the veto was

ated by this act is appropriated or shall be paid for the subsistence, equipment, transportation or compensation of any part of the army of the United States to be used as a police force to keep peace at the polls at any election held within any State."

The bill extending the legislative, executive and judicial appropriation act, of June 19th, 1878, for one year from the 30th inst, for the same sums and purposes therein specified. The bill will contain no general legislation except that portion of the recently vetoed bill known as "the McMahon amendment," providing for the repeal of certain laws regulating the payment of pensions. Last year's bill, which it is thus proposed to re-enact, provided for the salaries of all United States judges, district attorneys and United States marshals, but made no appropriation for "judicial expenses," which, however, were subsequently provided for in the sundry civil appropriation bill; hence it was agreed tions in detail for all estimated judicial expenses except per diems of supervisors and deputy marshals of elections, and containing also the clause agreed upon last Saturday: That no officer shall be appointed and no obligation incurred for any purpose not specifically appropriated for by Congress. This supplemental appropriation bill is also to embody those sections of the vetoed appropriation bill which provide for amendments of the law respecting the method of drawing juries and for the total abolition of the juror's test oath. The bill will also provide that no money therein appropriated shall be used for fees, salaries, compensation or expenses of any person appointed under title 26, revised - statutes, which comprises the Federal election laws; also that no liability shall be incurred for any object for which specific appropriation shall not have been made by Congress,

SUBSITUTE FOR BAYARD'S BILL.

DR. PEMBERTON'S

STILLINGIA QUEENS DELIGHT.

The reports of wonderful cures of theumatism, Scrofula, Salt Rheum, Cancer, Olcers and Sores, that come from all parts of he country, are not only remarkable but so miraculous as to be doubted was it not for the

REMARKABLE CURE of SCROFULA, &C. CASE OF COL. J. C. BRANSON.

GENTS:—For sixteen years I have been a great sufferer from Scrofula in its most distressing forms. I have been confined to my room and bed for fifteen years with scrofulous ulcerations. The most ap-proved remedies for such cases had been used, and the most eminent physicians consulted, without any decided benefit. Thus prostrated, distressed, des-ponding, I was advised by Dr. Ayer, of Floyd Counponding, I was advised by Dr. Ayer, of Floyd County, Ga., to commence the use of your Compound Extract Stillingia. Language is as insufficient to describe the relief I obtained from the use of the Stillingia as it is to convey an adaquate idea of the intensity of my suffering before using your medicine; sufficient to say, I abandoned all other remedies and continued the use of your Extract of Stillingia, until, "I am cured of all pain," of all disease with nothing to obstruct the active pursuit of my profession. More than eight months have elapsed since this remarkable cure, without any return of the disease.

For the truth of the above statement, I refer to any gentleman in Bartow County, Ga., and to the members of the bar of Cherokee Circuit, who are equainted with me. I shall ever remain, with the eepest gratitude, Your obedient servant, J. C. BRANSON, Ait,y at Law.

A MIRACLE.

WEST POINT, GA., Sept. 16, 1870. of June, 1863, with what was supposed to be Acute Rheumatism, and was treated for the same with no Rheumatism, and was treated for the same with no success. In March, following, pieces of bone began to work out of the right arm, and continued to appear till all the bone from the elbow to the shoulder joint came out. Many pieces of bone came out of the right foot and leg. The case was then pronounced one of White Swelling. After having been confined about six years to her bed, and the case considered hopeless. I was induced to try Dr. Pemberton's Compound Extract of Stillingia, and so well satisfied with its effects that I have continued the use of it until the present.

ise of it until the present.

My daughter was confined to her bed about six My daughter was connect to her bed about six years before she sat up or even turned over without help. She now sits up all day, and sews most of her time—has walked across the room. Her general health is now good, and I believe she will, as her limbs gain strength walk well. I attribute har recovery, with the blessing of God, to the use of your invaluable medicine.

With gratifieds, I am yours truly.

e medicine. With gratifude, I am, yours truly, W. B. BLANTON. West Point, Ga., Sept. 16, 1879.
GENTS:—The above certificate of Mr. W. B. Blanton we know and certify as being true. The thing is so; hundreds of the most respected citizens will

certify to it. As much reference can be given as may be required. Yours truly,

CRAWFORD & WALKER, Druggists.

freshets they are too apt to overflow to a large size. the spring, according to circumstances, tive on the spawn of other fishes. very foul, particularly in the morning; building my dams first, intending to waterd puring transportation. sometimes dry and convulsive; uneasy cut the side ditches afterwards, but did Fish raising is not only profitable, and disturbed sleep, with grinding of these plank will become perfectly May 10th, 1879. water-tight and prevent leakage, as as keep crawfish from borin holes through the dam.

The next step is to cart into the ditch pure-clay which should be put be in every Academy and in every school.—Hon. in gradually, and worked into a pud- CHAS. SUMNER. dle, or tough mortar, until the ditch is full. from one end to the other. This mortar, when it dries, will become almost as hard as a brick, thereby preventing the posibility of leaking.

In the erection of the dam, it is most important that it be constructed of the very best material, so as to make it secure. I have found nothing for A Large, Handsome Volume of 1854 Pages. this superior to good clay. Rock or frame work will not answer the purpose. They may do on large streams, where the waste of a small quantity of water is of no consequence; but on small streams, where it is necessary to save all the water, they will not answer the purpose at all. A dirt or clay dam, if properly built and protected on the water side with plank. and then soded over with grass will

The dam must be at least three times as wide at its base as it is high. The foundation must be laid on both sides of the ditch, so that, when it is finished, the ditch will be directly under the centre of the dam. The dirt should be carted on to the dam, which by the running of the cart, becomes a compact and tenacious mass. The dam should be four or five feet wide at the top when finished, and should be very wide at the bottom, sloping up on either side, like the roof of a house. I have one dam twenty-five feet and another that is forty feet wide at the
